CORPORATE SOCIAL RESPONSIBILITY

INTRODUCTION

Since the beginning of Madaouela project, GoviEx Niger SA is committed in implementing social programs to improve the welfare of the community surrounding the project area.

The programs supported by Goviex are focused around broad thematic areas of sustainability, vulnerability and livelihood, education and health.

It has been established that the community around Madaouela project area has continued to receive a low attention on behalf of the government.

For this reason the actions have been directed to the education, the health, the water and the employment to improve the living condition of the people.
